## AFYA RUGBY FITNESS AND NUTRITION

Want to excel at your sport? Then you need to get faster, fitter and stronger the right way. Our expert coaches have a track record of bringing out the best in every child. We will work with you to teach you what to do and how to do it.

### The Solution

AFYA are introducing the first ever specific strength and conditioning camp, which follows the most up-to-date research on long term athletic development. This is your chance to get ahead of the game.

What we will cover...

### Educational Lessons

Knowing why you're doing something makes the difference.

### Functional Movement Screen

This is the foundation from which all training programmes evolve from. Put simply it assesses the movement capacity of the player and provides the coach with vital information about how the player moves and, perhaps more importantly, where movement dysfunctions lie. This in turn guides future coaching.

### Strength & Power

Basic upper and lower body strength testing. These will be estimated from submaximal tests and all scores are expressed in absolute and relative measures which is crucial in maturing athletes.

### Speed & Agility

Acceleration, speed and momentum are measured over specific distances.

## WHO WE ARE

The AFYA leadership team is made up of experienced coaches, trainers and teachers who have a background in a variety of sports including Rugby Union, Netball, Tennis, Athletics, Swimming, Golf and Cricket. Other disciplines include Combat Training, Judo and Taekwondo plus Fencing, Golf, Climbing and Bushcraft.

The AFYA team consists of internationally recognised coaches and sports educators from around the world, stretching as far as Australia and New Zealand.

We have incorporated multiple skills and sports programmes into an approach to educating and training young children and athletes in order to provide holistic, enjoyable and demanding courses.

## Contact Us
